Step 2: Choose an account and a deposit amount

Tap the drop down arrow under **To Account**, and select the account that you would like to deposit the cheque into.

Enter the dollar amount of the cheque.

Step 3: Choose a photo option

There are two ways to take a photo of the front and back of your cheque before you deposit it.

1. If you have already taken a picture of the front and back of your cheque with the camera on your phone, tap the **Upload Photo** option and select the photo of your cheque from your photo library. Then upload photos for the front and the back.
2. If you haven't taken a photo of the cheque already, tap the **Take Photo** option in the **Cheque Front** section.

Tip!

If this is your first time taking a photo of a cheque in the app, you will be prompted to allow the app to access your camera.

Step 4: Take a photo

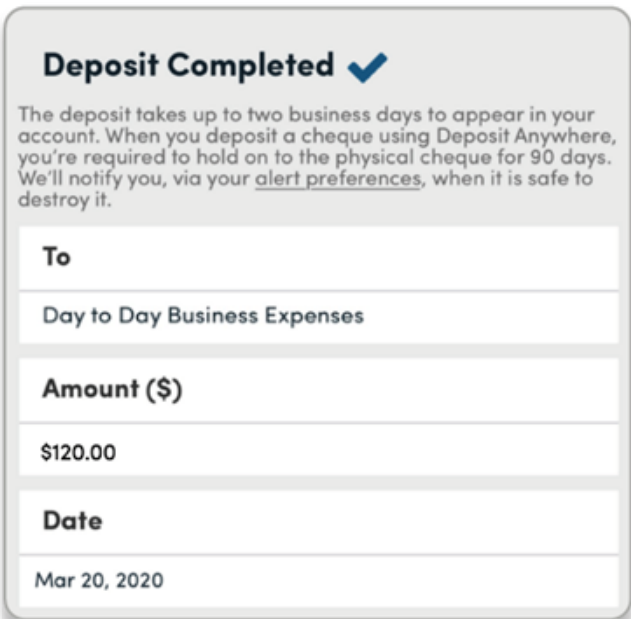

When taking a photo of your cheque, make sure that your cheque is face up, on a flat surface with plenty of light. Position the phone so that your cheque is within the grey frame. When it's in frame, tap the capture icon.

If you want to use this photo, tap the check mark icon. If not, tap the try again button.

Do this again for the back of the cheque.
